PROJECTS

Portfolio Website Project | *HTML, CSS, JavaScript, Git, Github*

- Developed a personal portfolio website from scratch using HTML, CSS, and JavaScript to showcase academic work and projects for coursemates acting as clients.
- Implemented a fully responsive design using grid layouts, ensuring cross-browser compatibility.
- Utilized Git for version control and deployed the live site using GitHub Pages.
- (Live Website: <https://pauland-ipa.github.io/portfolio-website-project/>)

Sarawak Autonomous Rapid Transit (ART) Prototype App for UI/UX Design coursework | *Figma*

- Designed a high-fidelity mobile application prototype for the Sarawak ART public transport system using Figma.
- Conducted user research such as surveys and interviews to define user flows and design specifications.
- Created a comprehensive design system adhering to modern UI/UX principles.
- (Live Prototype Figma Link: <https://www.figma.com/proto/ART-Prototype-App>)

Mobile e-Bookstore mockup app | *Android Studio*

- Developed a mockup e-Bookstore application for the Android platform using Kotlin in Android Studio.
- Designed the application layout and user interface using XML layouts.
- Implemented basic features such as a book catalog view, search functionality, and a simple user authentication screen.
- (Live Demo Showcase Video: https://youtu.be/7bFs1Dcs_Ko)
